

MACKENZIE CORPORATE KNIGHTS GLOBAL 100 INDEX ETF

Annual Management Report of Fund Performance

For the Period Ended March 31, 2024

This Annual Management Report of Fund Performance contains financial highlights but does not contain the complete annual financial statements of the exchange-traded fund (“ETF”). You may obtain a copy of the annual financial statements, at no cost, by calling the toll-free number 1-800-387-0614, by writing to us at Mackenzie Financial Corporation, 180 Queen Street West, Toronto, Ontario M5V 3K1, by visiting our website at www.mackenzieinvestments.com or by visiting the SEDAR+ website at www.sedarplus.ca.

Unitholders may also contact us using one of these methods to request a copy of the ETF’s interim financial report, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure. For more information, please refer to the ETF’s Prospectus and ETF Facts, which may also be obtained, at no cost, using any of the methods outlined above.

For the ETF’s current net asset value per unit and for more recent information on general market events, please visit our website.

A NOTE ON FORWARD-LOOKING STATEMENTS

This report may contain forward-looking statements that reflect our current expectations or forecasts of future events. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, “preliminary”, “typical” and other similar expressions. In addition, these statements may relate to future corporate actions, future financial performance of a fund or a security and their future investment strategies and prospects. Forward-looking statements are inherently subject to, among other things, risks, uncertainties and assumptions that could cause actual events, results, performance or prospects to differ materially from those expressed in, or implied by, these forward-looking statements. These risks, uncertainties and assumptions include, without limitation, general economic, political and market factors in North America and internationally, interest and foreign exchange rates, the volatility of global equity and capital markets, business competition, technological change, changes in government regulations, changes in securities laws and regulations, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, outbreaks of disease or pandemics (such as COVID-19), and the ability of Mackenzie to attract or retain key employees. The foregoing list of important risks, uncertainties and assumptions is not exhaustive. Please consider these and other factors carefully and do not place undue reliance on forward-looking statements.

The forward-looking information contained in this report is current only as of the date of this report. There should not be an expectation that such information will in all circumstances be updated, supplemented or revised whether as a result of new information, changing circumstances, future events or otherwise.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended March 31, 2024

Management Discussion of Fund Performance

June 4, 2024

This Management Discussion of Fund Performance presents the portfolio management team's view on the significant factors and developments that have affected the ETF's performance and outlook in the year ended March 31, 2024 (the "period"). If the ETF was established during the period, "period" represents the period since inception.

In this report, "Mackenzie" and "the Manager" refer to Mackenzie Financial Corporation, the manager of the ETF. In addition, net asset value ("NAV") refers to the value of the ETF as calculated for subscription and redemption purposes, on which the discussion of ETF performance is based.

Please read *A Note on Forward-Looking Statements* on the first page of this document.

Investment Objective and Strategies

The ETF seeks to replicate, to the extent reasonably possible and before fees and expenses, the performance of the Corporate Knights Global 100 Index, or any successor thereto. It invests primarily in equity securities of issuers from anywhere in the world, selected based on an evaluation of sustainability characteristics using criteria set out by the index provider.

Risk

The risks of the ETF remain as discussed in the ETF's Prospectus.

The ETF is suitable for medium- to long-term investors looking for a global equity fund with exposure to stocks that meet a wide set of environmental, social and governance rating criteria within their portfolio, who can handle the volatility of stock markets and who have a medium tolerance for risk.

Results of Operations

Investment Performance

Investment performance is not presented because the ETF has not issued units for the full 12-month period.

Environmental, Social and Governance ("ESG") Impact

The ETF invests in the 100 most sustainable companies, as determined by the Corporate Knights Global 100 Index. Corporate Knights Inc. assesses corporate sustainability using a research methodology that employs up to 25 key performance indicators covering resource management, employee management, financial management, sustainable revenue and sustainable investment, and supplier performance. The index is reconstituted each year in January.

Based on the most recent scope 1 and 2 greenhouse gas emissions intensity data, the weighted average carbon intensity of the portfolio was 72.3 metric tons of carbon dioxide-equivalent emissions per million U.S. dollars of revenue ("tCO₂e/US\$M") at March 31, 2024. (The Greenhouse Gas Protocol defines scope 1 as direct emissions from fuel burned in a company's owned or controlled assets and/or chemical leaks and spills, and scope 2 as indirect emissions from purchased electricity, cooling, heat and/or steam.) The weighted average carbon intensity of the MSCI AC (All Country) World (Net) Index, which offers a meaningful comparison, was 120.1 tCO₂e/US\$M. (All data is from MSCI ESG Research LLC.)

Net Assets

From its inception on April 18, 2023, to March 31, 2024, the ETF experienced \$0.1 million in net income (including any interest and/or dividend income) from investment performance, after deducting fees and expenses, and an increase of \$8.7 million due to net unitholder activity (including sales, redemptions and cash distributions).

Recent Developments

Because the ETF is an index fund, neither market expectations nor recent developments affect the composition of the portfolio.

Related Party Transactions

Management Fees

The ETF paid management fees to the Manager at the annual rate of 0.50%. The annualized management expense ratio ("MER") is presented in the *Financial Highlights* section of this report.

The management fee for the ETF is calculated and accrued daily as a percentage of its NAV. The ETF's management fees were used by the Manager to pay for the costs of managing the investment portfolio of the ETF, including providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sale of the investment portfolio, providing other services and licensing the index, and to pay for all costs and expenses (other than certain specified fund costs as more fully described in the Prospectus) required to operate the ETF.

Other Related Party Transactions

The Manager is wholly owned by IGM Financial Inc., which in turn is a subsidiary of Power Corp. of Canada. Companies related to Power Corp. of Canada are therefore considered affiliates of the Manager. At March 31, 2024, the ETF held the following investment(s) in companies affiliated with the Manager: \$0.1 million invested in securities issued by IGM Financial Inc. and \$0.1 million invested in securities issued by Umicore SA. The investment(s) represented 1.9% of the ETF's NAV. In making the investment(s), the Manager relied on the approval of the Mackenzie Funds' Independent Review Committee. The Independent Review Committee issued the approval on the basis that the investment(s) would be made in compliance with the Manager's policies. The Manager's policies are designed to ensure that any related party transaction (i) is made free from any influence by an entity related to the Manager and without taking into account any considerations relevant to an entity related to the Manager; (ii) represents the business judgment of the Manager, uninfluenced by considerations other than the best interests of the ETF; and (iii) achieves a fair and reasonable result for the ETF.

Investment funds managed by Mackenzie and its affiliates may invest in the ETF in accordance with the investment objectives of those funds. At March 31, 2024, funds managed by Mackenzie owned 29.6% of the ETF's NAV. All related party transactions are based on the current market price. As a result of these investments, the ETF may be subject to large transaction risk as discussed in the Prospectus. Mackenzie manages this risk to reduce the possibility of any adverse effects on the ETF or on its investors, through such processes as settling transactions in kind, charging creation and/or redemption fees for transactions settling in cash, and establishing appropriate order cut-off times for transactions.

Past Performance

Past performance is not presented because the ETF has not issued units for the full 12-month period.

ANNUAL MANAGEMENT REPORT OF FUND PERFORMANCE | For the Period Ended March 31, 2024

Financial Highlights

The following tables show selected key financial information about the ETF and are intended to help you understand the ETF's financial performance for each of the fiscal periods presented below. In the period when the ETF was established, "period" represents the period from inception (April 18, 2023) to the end of that fiscal period.

THE ETF'S NET ASSETS PER SECURITY (\$)¹

	Mar. 31 2024
CAD Units (Ticker: MCKG)	
Net assets, beginning of period	20.00
Increase (decrease) from operations:	
Total revenue	0.53
Total expenses	(0.12)
Realized gains (losses) for the period	0.25
Unrealized gains (losses) for the period	(0.38)
Total increase (decrease) from operations²	0.28
Distributions:	
From net investment income (excluding Canadian dividends)	–
From Canadian dividends	–
From capital gains	–
Return of capital	–
Total annual distributions³	–
Net assets, end of period	19.62

- (1) These calculations are prescribed by securities regulations and are not intended to be a reconciliation between opening and closing net assets per unit. This information is derived from the ETF's audited annual financial statements. The net assets per unit presented in the financial statements may differ from the net asset value per unit calculated for ETF pricing purposes. An explanation of these differences, if any, can be found in the *Notes to Financial Statements*.
- (2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the fiscal period.
- (3) Distributions were paid in cash/reinvested in additional units of the ETF, or both.

Index Provider Disclaimer

"Corporate Knights," "Corporate Knights Global 100" and other trade marks related to the Index are trade marks of the Index Provider and are used by the Mackenzie ETF, the Manager and its affiliates under licence. No part of the information describing or providing details as to the construction or calculation of the Index, whether appearing in this document or on the Index Provider's website, may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, mechanical, photocopying, recording or otherwise, without prior written permission of the Index Provider.

It is not possible to invest directly in an index. Exposure to securities or a trading strategy represented by an index is only available through investable instruments based on that index. There is no assurance that any index-linked investment, such as the Mackenzie ETF, will accurately track performance of the Index. Index returns do not represent the results of actual trading of investable assets or securities. The Index Provider maintains the Index, but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index. The imposition of these fees and other charges would cause the performance of an index-linked investment, such as the Mackenzie ETF, to be different than the indicated Index performance.

The Index Provider does not provide investment advice and nothing herein is intended as constituting financial or investment advice. Inclusion of a security in an index is not a recommendation to buy, sell or hold such security. Prospective investors should obtain their own legal, tax and investment advice.

RATIOS AND SUPPLEMENTAL DATA

	Mar. 31 2024
CAD Units (Ticker: MCKG)	
Total net asset value (\$000)¹	8,830
Units outstanding (000)¹	450
Management expense ratio (%)²	0.56
Management expense ratio before waivers or absorptions (%)²	0.56
Trading expense ratio (%)³	0.05
Trading expense ratio before reimbursements(%)³	0.18
Portfolio turnover rate (%)⁴	n/a
Net asset value per unit (\$)	19.62
Closing market price (\$)⁵	19.70

- (1) This information is provided as at the end of the fiscal period shown.
- (2) Management expense ratio ("MER") is based on total expenses, excluding commissions and other portfolio transaction costs, income taxes and withholding taxes, for the stated period and is expressed as an annualized percentage of daily average net assets during the period, except as noted. If the ETF was established in the period, the MER is annualized from the date of inception to the end of the period. Where the ETF directly invests in securities of another fund (including other ETFs), the MER presented for the ETF includes the portion of MERs of the other fund(s) attributable to this investment. Any income distributions received from ETFs managed by the Manager, with the intention of offsetting fees paid within those ETFs but which are not considered to be duplicative fees under regulatory requirements, are treated as waived expenses for MER purposes. The Manager may waive or absorb operating expenses at its discretion and stop waiving or absorbing such expenses at any time without notice.
- (3) The trading expense ratio ("TER") represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period. Where the ETF invests in securities of another fund (including other ETFs), the TER presented for the ETF includes the portion of TERs of the other fund(s) attributable to this investment. The Manager may reimburse the ETF for certain brokerage commissions and other transaction costs (including those payable to the custodian or its agents). The Manager may make these reimbursements at its discretion and stop these reimbursements at any time without notice.
- (4) The ETF's portfolio turnover rate indicates how actively the ETF's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the ETF buying and selling all of the securities in its portfolio once in the course of the period. The higher the ETF's portfolio turnover rate in a period, the greater the trading costs payable by the ETF in the period, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the ETF. The portfolio turnover rate is not provided when the ETF is less than one year old.
- (5) Closing market price, or the midpoint of the bid and ask prices in the absence of a closing market price, on the last trading day of the period as reported on Cboe Canada.
